I attached their 60 notice letter from May. In it they cite mostly oils, greases, and lubricants, but also reference PCBs and cooling water.

Subject: Columbia Riverkeeper files a CWA suit on the Corps Dams.....

Riverkeepers sue Corps over pollution from dams. A conservation advocacy group, filed a lawsuit against the U.S. Army Corps of Engineers today. Columbia Riverkeeper alleges various hydroelectric dams the corps operates are leaking pollutants into the Columbia and Snake rivers above state and federal limits and without proper permits.
